

# LOOK UP at Level Crossings and stay alert

## Stay safe at Level Crossings

**CONCENTRATE** - Never text, read messages or make phone calls while near a level crossing and remove earphones so that you can hear warnings clearly.

If anything becomes entangled on the track, you **MUST** leave it and move clear. Report it to a member of Translink staff.

If you are riding a bicycle there may be signs telling you to dismount. You **MUST** obey instructions.

You **MUST** always obey the flashing warning lights and alarms.

You **MUST** stay behind the barriers. If you are in a group of people, group members who haven't crossed yet **MUST** stay behind the barriers.

You **MUST** not cross until barriers are fully raised and the warning lights have extinguished. Don't try to walk through, jump over or crawl underneath lowered barriers.

If a train goes by and the red lights continue to flash this means another train will pass soon.
